

Magnetic Car Phone Mount

User Manual | VWS-H38

Introduction

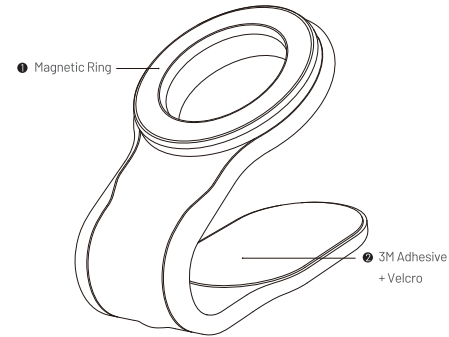

This sleek and stylish car phone mount features 20 strong N52 magnets for a secure hold for your phone. Made from memory aluminum alloy, it offers adjustable angles and effortless flexibility. No matter what car you drive, it's compatible and can be easily placed wherever you prefer—making every drive smoother and more enjoyable.

Specifications

Model: KSI
Color: Black
Material: Aluminum-Titanium Alloy + TPU
Dimensions: 216.4mm * 66mm * 12.3mm
Mounting Type: Dashboard
Base: 3M Adhesive + Velcro

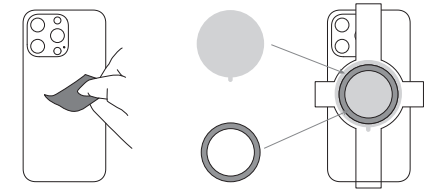

Product Overview

1. Magnetic Ring
2. 3M Adhesive + Velcro

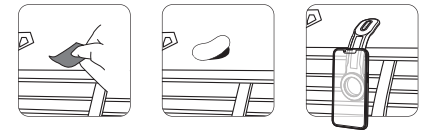

Instructions for Use

1. Clean the back of your phone with the provided cleaning wipes. Use the positioning card to determine the correct placement, then apply the electrostatic film sticker. Next, attach the magnetic adhesive ring on top of the sticker. (Note: Some protective cases come with a built-in metal ring that can be used directly.)

2. Clean the desired mounting area inside your car using the provided cleaning wipes. Peel off the backing from the 3M Adhesive + Velcro, then firmly press it onto the clean surface. Adjust the mount to your preferred angle and attach it securely to the 3M Adhesive + Velcro. Installation is now complete!

Safety Warning

Please read all instructions and warnings before using this product. Non-standard use will damage the product or personal safety.

1. Do not expose this product to sunlight, fire or other overheated environments; Do not store it in intense light, heat, or magnetic fields; Do not place it in a fire source or in any unfavorable environment; If water enters, please dry it naturally before use.
2. Improper use can damage the product or may endanger personal and property safety.
3. Our company will not bear any legal liability for any personal or property damage caused by users who misuse the product, disregard the warning, or violate the terms and conditions of the User Manual.
4. Non-professionals cannot disassemble the product.

Notes

1. Using a phone case may weaken the magnetic attraction. To improve stability, attach the metal ring plate directly to the case.
2. Ensure the surface is clean and dry before applying the 3M Adhesive + Velcro.
3. After attaching the 3M Adhesive + Velcro to your car, allow it to set for 24 hours before use.
4. The mount's handle is designed to withstand up to 300 bends. Avoid excessive bending in a short period to maintain longevity.
5. Do not bend the car mount at a full 180-degree angle to prevent damage.
